CORONAVIRUS COVID-19
HOW TO WASH YOUR HANDS PROPERLY:

1. Wet hands with water and apply soap.
2. Rub hands palm to palm.
3. Rub palm over the back of the other hand with interlaced fingers and vice versa.
4. Rub the inside of your hands palm to palm with fingers interlaced.
5. Rub the back of your fingers to opposing palms with fingers interlocked.
6. Rotational rubbing with left thumb clasped in right palm and vice versa.
7. Rotational rubbing, backwards and forwards with clasped fingers of right hand in left palm and vice versa.
8. Rinse hands under running water.
9. Dry hands thoroughly with a paper towel.
10. Use a paper towel to close the tap.

CORONAVIRUS COVID-19
PRACTICE PHYSICAL DISTANCING:

- Limit meetings and non-essential travels:**
 Use video conferencing instead of face-to-face meetings; when video calls are not possible, hold your meeting in well-ventilated rooms and spaces.
- 1.5 - 2 METERS**
- Stop hand-shakes and use non-contact greeting methods.**
- Stay home if you are feeling sick or if you have a sick family member at home.**

CORONAVIRUS COVID-19
DID YOU KNOW?

Washing your hands with soap and water kills more germs and bacteria than sanitisers.

When was the last time you washed your hands?

CORONAVIRUS COVID-19
WHAT TO DO IF YOU ARE SICK:

If you are sick with COVID-19 or think you might have COVID-19, follow the steps below to care for yourself and to help protect other people in your home and community:

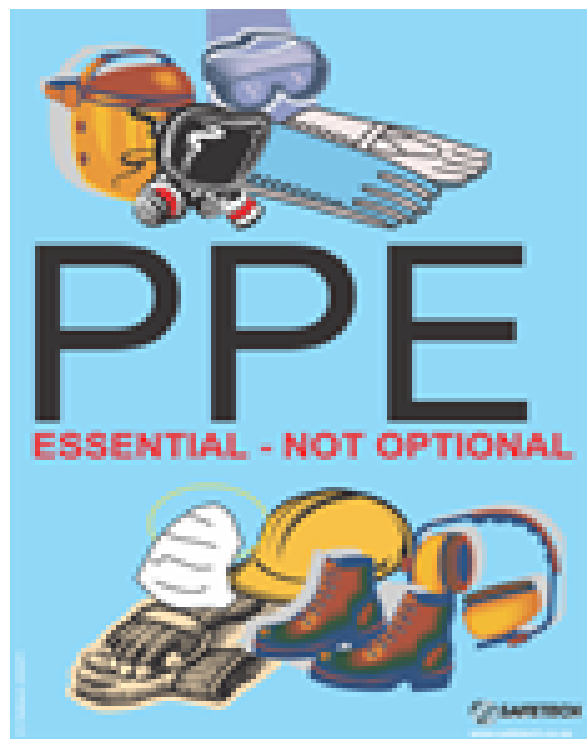

- Stay Home:** Most people with COVID-19 have mild illness and can recover at home without medication. Do not leave your home, except to get medical care. Do not visit public areas.
- Monitor Your Symptoms:** Stay in touch with your doctor. Call before you get medical care. Be sure to get care if you have trouble breathing, or loss of consciousness or warning signs, or if you think it is an emergency.
- Take care of yourself:** Get rest and stay hydrated.
- Follow medical instructions:** Your local medical authorities may give instructions on checking your symptoms and reporting information.
- When to Seek Medical Attention:** Common symptoms of COVID-19 include fever and cough. Trouble breathing is a reasonable sign that means you should get medical attention.
